

Year 2022

Month 6 Day 21

Toyohashi City Board of Education

Chief Yamanishi Masayasu

To the Parents,

About the revocation of lending the school lunch Uniform (white apron (hakui))

Thank you for your cooperation with the city's promotion for education.

However, we would like to inform you that the white apron (hakui) distributed by the school, which is shared by the children for a long time for school lunch duty will be stopped. Due to concerns about sharing items and the smell of softener used for washing the white apron (hakui) at home, that cause uncomfortable feeling to some students. So we have decided to stop lending the white apron (hakui) used for the school lunch duty and allow each student to have his/her own white apron. We would appreciate the parent's cooperation and understanding regarding this matter including preparation for the school lunch uniform (white apron (hakui)).

In addition, we will give information on when to give back the white apron, thank you for your understanding and cooperation.
